

How Do I Find the Enterprise Code and Company Number?

To find the customer's Enterprise Code and Company Number, take the following steps:

1. In the DealerTrack DMS, use function **Exit** until the main menu displays for the selected application.
2. The Enterprise Code and Company Number will display in the top right corner if you are using the Web Access (GUI) version of the DealerTrack DMS software. The numbers will display in the bottom left corner if you are using the iSeries Access (Green Screen) version of the DealerTrack DMS software.
3. The Company Number will be 3 digits, and will end with a number. The Enterprise Code will be two or four characters.

To find the Server Name:

In either the Green Screen or the GUI the user needs to sign out.

1: In the green screen the server name will display in the top right hand corner.

2: In the GUI screen the user will need to (Ctrl e) and the green screen will appear. The server name will show in the top right hand corner.
